2. *Team with three games has seven points; team with four games has ten points.*
3. *Four game team's 10 points are multiplied by 75% to determine weighted points (10 x .75 = 7.5 points).*
4. *Team with four games would advance with weighted points of 7.5 being higher than unweighted points of seven for team with three games.*

3-team groups vs 4-team groups

CHALLENGE CUP POLICIES AND RULES OF COMPETITION

1. *If one team played three games and another team played two games, all numbers for the team that played three games would be multiplied by .666666667 and then compared to the actual numbers for the team that played two games.*
2. *Team with three games has six points; team with two games has four points.*
3. *Three game team's six points are multiplied by .666666667 to determine weighted points (6 x .666666667 = 4.0000000002 points).*
4. *Team with three games would advance with weighted points of 4.0000000002 being higher than unweighted points of four for team with three games.*

- C. If three teams are still tied after all tie breakers have been applied, the three team names will be placed in a hat. The first team drawn out will receive a bye for the first round of penalty kicks. Teams 2 and 3 will play penalty kicks. The winner of Penalty kicks between teams 2 and 3 will play team 1 to see who will advance.
